

FHA STRAP

STUD GUARD

Stud Guard

Fabrication:

18GA
1 1/2" Wide
Self-Nailing Ends

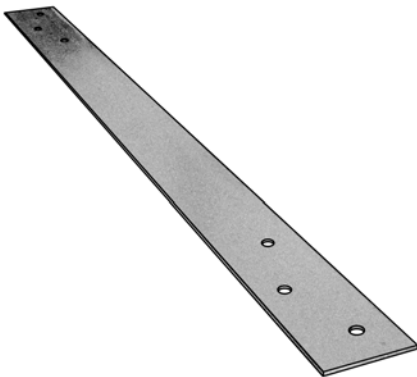

Available:

6" Length

Use:

Installed during interior wall construction.
Protects electrical cable and copper tubing
from nails; prevent later accidents caused by
contact with hidden wiring.

FHA Strap

Fabrication:

18GA
1 1/2" Wide
8 Holes

Available:

12" and 18" Lengths

Use:

To repair a bearing wall "cut-out", and to
"tie together" wall corners, splices, and
bearing headers.
